

Waking the Goddess (Body Ascension Series Book 2)

In *Waking the Goddess*, Book Two of the Body Ascension Series, Angela courageously shares the gifts of her deep exploration of the creative and sexual energy, as she opens the circuitry within her body through Explosive Sexual Healing and G-spot orgasm. The opening of the pathways within her body and the activation of the sacred feminine Shakti energy initiates her into the deepest transformation of her life, as this awakened energy draws her to her Twin Flame. Many believe in the fairy tale concept of happily-ever-after when Twin Flames meet, but the truth is much different. While the gift of eternity is literally experienced in a single meeting of the eyes, it is also the most intense catalyst of spiritual awakening one can imagine. Anything that stands between where you are and true unconditional love gets served up for incineration. Every illusion and false belief around relationship, love, sex, money and religion rises to be transmuted on behalf of self and the collective. Angela's extensive training in esoteric and yogic practice poises her to handle deep cellular, mental, emotional and spiritual lessons as she literally transmutes millennia of feminine pain and illusion through her very body. Despite barriers that are destined to keep them apart, Angela and her twin Max are drawn together by a tractor beam of divine eternal love, and walk bravely into the flames of transformation, trusting a higher purpose within the blueprint of the true divine union. The gifts are as immense as the pain as they swing in the polarity of human experience, discovering the meaning of divine union in the act of unifying the polarity into oneness. Ultimately twins find each other to embody unconditional love and awaken to their roles of being in service to humanity. This is the most raw and naked sharing of truth as Angela bares it all in every way imaginable, reaching deeper levels of

authenticity in her quest to inspire all others to the courage to be their truest, most authentic selves.
