

Eternal Strangers

Ursula Bacon's impassioned memoir *Shanghai Diary* has touched the lives of people around the world, recounting the story of her youth in China. *Eternal Strangers* finds the author recounting events before *Shanghai Diary* begins, with the meeting of the author's parents and their escape from war-torn Europe to the safer harbors of Asia. Inspiring, thought-provoking and starkly honest, *Eternal Strangers* will be a book discussed for years to come.
